

# LightPath Technologies signs second agreement for aspheric lenses with Huanic Corporation.

***LightPath Technologies is in collaboration with Huanic Corporation to provide aspheric lenses for Huanic's laser modules for consumer and industrial laser tools.***

(August 27, 2009) Orlando, FL. LightPath Technologies, Inc. (NASDAQ: [LPTH](#) - [News](#)), is pleased to announce that it is in collaboration with Huanic Corporation to provide aspheric lenses for Huanic's laser modules. LightPath will provide short focal length aspheric lenses for a new project with application in laser instruments. This new contract is the second contract LightPath has with Huanic to provide aspheric lenses. Huanic manufactures a wide variety of laser tools as an OEM manufacturer for US & European based tool manufacturers as well as modules for the local Chinese markets.

Mr. Sun Jianhua, General Manager of Huanic Corporation, commented, "We are pleased to have LightPath as a supplier and partner. LightPath has been able to provide high quality lenses adapted to our needs quickly and at a competitive price helping us to grow our business."

Jim Gaynor, the CEO of LightPath Technologies, commented, "The quality and performance of LightPath's laser tool line of glass aspheric lenses was a key factor in the partnership with Huanic. LightPath was able to provide a single lens solution in high volume that provided a cost and labor savings over traditional spherical doublet and triplet lenses without sacrificing performance. Huanic is able to highlight the quality of the optical lens design as a competitive advantage for its products."

"LightPath Technologies has been executing its strategy of improving its cost structure, expanding its markets and addressing higher production volumes. These agreements with Huanic represent a key element of our strategy to establish LightPath as a major supplier for high volume glass aspheric lenses to our OEM customers."
