
LightPath Announcement: LightPath Technologies New Product Announcement Expanded Moldable Glass Catalog

LightPath Technologies Expands Its Moldable Glass Catalog

(January, 2009) Orlando, FL. LightPath Technologies, Inc. (Nasdaq: [LPTH](#) - [News](#)),

LightPath Technologies is pleased to announce the expansion of our Moldable Glass Catalog to include two new glasses, D-ZK3 and D-ZLAF52LA. These two glasses allow additional possibilities for design of custom aspheric lenses.

Both D-ZK3 and D-ZLAF52LA are RoHS compliant and have been fully qualified with LightPath's proprietary molding process and standard Anti-Reflective (AR) coatings. These new glasses provide greater durability than LightPath's ECO550 glass due to a higher glass transition point.

LightPath Technologies has started to incorporate these new glasses into its aspheric lens catalog with the introduction of its new Laser Tool line of Aspheric lenses.
